Section 1 – Chemical Product / Company Information

Product Name ACRYLC 5-GL MATHYS PGRST AIRLESS GRY GRN

Revision Date December 9, 2011

Identification Number 202544

Product Use/Class Paint/Water-borne

Supplier
Rust-Oleum Corporation
11 Hawthorn Parkway
Vernon Hills, IL 60061
USA

Manufacturer
Rust-Oleum Corporation
11 Hawthorn Parkway
Vernon Hills, IL 60061
USA

Preparer Regulatory Department

Section 2 – Composition / Information on Ingredients

Chemical Name	CAS Number	Weight % Less Than	ACGIH TLV-TWA	ACGIH TLV-STEL	OSHA PEL-TWA	OSHA PEL-CEILING
2-Methoxy-1-Methylethyl Acetate	108-65-6	50	50 ppm (AIHA)	N.E.	N.E.	N.E.
Zinc Phosphate, modified	Proprietary	25	N.E.	N.E.	N.E.	N.E.
Xylene (mixture of isomers)	1330-20-7	25	100 ppm	150 ppm	100 ppm	
Zinc Stearate (11% Zn)	557-05-1	2.5	10 ppm	N.E.	15 mg/m3 (Total Dust)	N.E.
1-Methoxy-2-Propanol	107-98-2	2.5	100 ppm	150 ppm	N.E.	N.E.

Section 3 – Hazards Identification

*** EMERGENCY OVERVIEW ***: Harmful if inhaled. Causes eye irritation. Aspiration hazard. Harmful or fatal if swallowed. May cause skin irritation.

EFFECTS OF OVEREXPOSURE - EYE CONTACT: Causes moderate eye irritation.

EFFECTS OF OVEREXPOSURE - SKIN CONTACT: Causes skin irritation. Prolonged or repeated contact can result in defatting and drying of the skin which may result in skin irritation and dermatitis (rash).

EFFECTS OF OVEREXPOSURE - INHALATION: Harmful if inhaled. Headaches, dizziness, nausea, decreased blood pressure, changes in heart rate and cyanosis may result from over-exposure to vapor or skin exposure. Prolonged inhalation may be harmful. Inhaling large quantities of mist or vapors may cause some irritation to nose, throat and lungs.

EFFECTS OF OVEREXPOSURE - INGESTION: Ingestion is not considered to be a hazard encountered in normal industrial use. This material may be harmful or fatal if swallowed. Aspiration hazard. Depression of the central

nervous system can occur. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS: Overexposure may cause nervous system damage. Overexposure may cause lung damage. Repeated contact with skin may irritate pre-existing skin conditions.

ENVIRONMENTAL HAZARDS: Harmful to aquatic organisms. May cause long-term adverse effects in the aquatic environment.

Section 4 – First Aid Measures

FIRST AID - EYE CONTACT: Holding eyelids open, flush eyes with running water for 5 minutes. Remove contact lenses if wearing and flush open eyes with running water for at least 15 minutes. Seek medical attention.

FIRST AID - SKIN CONTACT: Wash with soap and large amounts of water. Remove contaminated clothing. Get medical attention if irritation develops or persists. Wash contaminated clothing before re-use.

FIRST AID - INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention.

FIRST AID - INGESTION: If swallowed, do NOT induce vomiting. Call physician immediately.

Section 5 – Fire Fighting Measures

Flash Point 104 ºF (40ºC)

Extinguishing Media: Film Forming Foam Carbon Dioxide Dry Chemical Dry Sand Water Spray

FIRE AND EXPLOSION HAZARDS: COMBUSTIBLE! Vapors can travel to a source of ignition and flash back. Do not expose containers to heat, flame or any other ignition sources.

SPECIAL FIREFIGHTING PROCEDURES: Fire will produce dense black smoke. Exposure to decomposition products may cause a health hazard. Containers can build up pressure if exposed to heat (fire). As in any fire, wear self-contained breathing apparatus pressure-demand (MSHA/NIOSH approved or equivalent) and full protective gear. Keep containers and surroundings cool with water spray.

DECOMPOSITION PRODUCTS: Carbon oxides and metal oxides.

Section 6 – Accidental Release Measures

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Absorb spill with inert material (e.g. dry sand, earth or vermiculite), then place in a chemical waste container for disposal in accord with local regulations. Do not allow to enter drains or watercourses. Clean up preferably with detergent, not solvents.

Section 7 – Handling and Storage

HANDLING: Paint is COMBUSTIBLE! Keep away from heat, sparks and flame. Keep container tightly closed. Avoid contact with skin and eyes. Avoid the inhalation of dust, particulates, spray or mist arising from the use of this product. Do not spray into open flame or near other sources of ignition. Wash thoroughly after handling.

STORAGE: Do not store below 32ºF or above 120ºF. KEEP OUT OF THE REACH OF CHILDREN! Store in a cool, well-ventilated area away from heat, direct sunlight, incompatible materials and ignition sources. Store opened and resealed containers upright to avoid leakage.

Section 8 – Exposure Controls / Personal Protection

ENGINEERING CONTROLS: Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product.

RESPIRATORY PROTECTION: None required under normal intended use conditions. In areas of poor ventilation or if vapor exposure causes discomfort, wear a NIOSH approved respiration with an organic vapor cartridge.

SKIN PROTECTION: Wear impervious gloves to prevent prolonged skin contact.

EYE PROTECTION: Wear safety glasses with side shields or goggles to prevent eye contact.

OTHER PROTECTIVE EQUIPMENT: STANDARD INDUSTRIAL CLOTHING STANDARDS SHOULD BE FOLLOWED.

HYGIENIC PRACTICES: Wash hands before eating. Remove contaminated clothing and wash before reuse. Use only in a well ventilated area. Follow all MSDS/label precautions even after container is emptied because they may retain product residues. Avoid prolonged or repeated contact with skin. Avoid breathing vapors from heated material. Avoid contact with eyes, skin, and clothing.

Section 9 – Physical and Chemical Properties

Vapor Density	Heavier than Air	Odor:	Solvent
Appearance:	Green Emulsion	Evaporation Rate:	Slower than Ether
Solubility in Water:	Insoluble	Freeze Point:	N.D.
Specific Gravity:	1.1	pH:	N.A.
Physical State:	Liquid	VOC Content:	547 g/L
Viscosity:	2300 cps	Boiling Point:	>320ºF (>160ºC)

Section 10 – Stability and Reactivity

INCOMPATIBILITY: Avoid contact with strong oxidizers, acids and bases.

HAZARDOUS DECOMPOSITION PRODUCTS: Smoke, oxides of carbon and oxides of nitrogen, phosphorous, and/or sulfur are possible. Smoke, fumes, oxides of carbon, nitrogen, silica, and various metal oxides are possible decomposition products.

HAZARDOUS POLYMERIZATION: Will not occur under normal conditions.

STABILITY: This product is stable under normal storage conditions.

Section 11 – Toxicological Information

No data on the paint preparation itself.

Chemical Name	**LD_{50}**	**LC_{50}**
2-Methoxy-1-Methylethyl Acetate	8532 mg/kg (Oral, Rat)	
Zinc Phosphate, modified	>5000 mg/kg (Oral, Rat)	
Xylene	4300 mg/kg (Oral, Rat)	4550 ppm (Rat, Inhalation, 4-Hr)
1-Methoxy-2-Propanol	6600 mg/kg (Oral, Rat)	10,000 ppm (Inhalation, Rat, 4-Hr)

Section 12 – Ecological Information

Ecological Information: No data on paint preparation itself.

Section 13 – Disposal Information

Disposal Information: Dispose of material in accordance to local, state and federal regulations and ordinances. Do not allow to enter storm drains or sewer systems.

Section 14 – Transportation Information

	Domestic (USDOT)	International (IMDG)	Air (IATA)
Proper Shipping Name:	Paint, Not Regulated	Paint	Paint
Hazard Class:	N.A.	3	3
UN Number:	N.A.	UN1263	UN1263
Packing Group:	N.A.	III	III
Limited Quantity:	No	Yes	Yes

Section 15 – Regulatory Information

CERCLA – SARA Hazard Category

This product has been reviewed according to the EPA ñHazard Categoriesò promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

IMMEDIATE HEALTH HAZARD CHRONIC HEALTH HAZARD FIRE HAZARD

SARA Section 313:
Listed below are the substances (if any) contained in this product that are subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

Chemical Name	CAS Number	Wt/Wt % (less than)
Zinc Phosphate, modified	Proprietary	25
Xylene	1330-20-7	25
Zinc Stearate	557-05-1	2.5

Toxic Substances Control Act:
Listed below are the substances (if any) contained in this product that are subject to the reporting requirements of TSCA 12 (B) if exported from the United States:

None

International Regulations:

Canadian WHMIS:

This MSDS has been prepared in compliance with Controlled Product Regulations except for the use of the 16 headings.

Canadian WHMIS Class: B3 D2B

Section 16 – Other Information

HMIS Ratings: Health: 2 Flammability: 2 Physical Hazard: 0 PPE: X

NFPA Ratings: Health: 2 Flammability: 2 Instability: 0

Volatile Organic Compounds, g/L: 547

Reason for Revision: Regulatory Update
