## 2. Hazard Identification

**EMERGENCY OVERVIEW:** Use ventilation necessary to keep exposures below recommended exposure limits, if any. May cause eye, skin, or respiratory tract irritation. KEEP OUT OF REACH OF CHILDREN. Harmful if inhaled. Causes eye irritation. Combustible liquid and vapor.

### Classification

### Symbol(s) of Product

### Signal Word

Danger

### GHS HAZARD STATEMENTS

|  |      |   |
|--|------|---|
| Flammable liquid, category 4           | H227 | Combustible liquid                              |
| Acute Toxicity, Dermal, category 5     | H313 | May be harmful in contact with skin.            |
| Skin Irritation, category 2            | H315 | Causes skin irritation.                         |
| Acute Toxicity, Inhalation, category 4 | H332 | Harmful if inhaled.                             |
| STOT, single exposure, category 3, RTI | H335 | May cause respiratory irritation.               |
| STOT, single exposure, category 3, NE  | H336 | May cause drowsiness or dizziness.              |
| Organic Peroxide, categories C, D      | H242 | Heating may cause a fire.                       |
| Aspiration Hazard, category 2          | H305 | May be harmful if swallowed and enters airways. |
| Eye Irritation, category 2B            | H320 | Causes eye irritation.                          |

### GHS PRECAUTIONARY STATEMENTS

|      |   |
|------|---|
| P102 | Keep out of reach of children.  |
| P103 | Read label before use.  |
| P202 | Do not handle until all safety precautions have been read and understood. |
| P234 | Keep only in original container.  |
| P260 | Do not breathe dust/fume/gas/mist/vapours/spray.                          |
| P261 | Avoid breathing dust/fume/gas/mist/vapours/spray.                         |
| P262 | Do not get in eyes, on skin, or on clothing.                              |

|           |  |
|-----------|--|
| P264      | Wash ... thoroughly after handling.  |
| P270      | Do not eat, drink or smoke when using this product.  |
| P271      | Use only outdoors or in a well-ventilated area.  |
| P273      | Avoid release to the environment.  |
| P280      | Wear protective gloves/protective clothing/eye protection/face protection.                       |
| P281      | Use personal protective equipment as required.   |
| P285      | In case of inadequate ventilation wear respiratory protection.                                   |
| P312      | Call a POISON CENTER or doctor/physician if you feel unwell.                                     |
| P351      | Rinse cautiously with water for several minutes.   |
| P374      | Fight fire with normal precautions from a reasonable distance.                                   |
| P402      | Store in a dry place.  |
| P410+P412 | Protect from sunlight. Do not expose to temperatures exceeding 50°C / 122°F.                     |
| P321      | Specific treatment (see ... on this label).  |
| P352      | Wash with plenty of soap and water.  |
| P362      | Take off contaminated clothing and wash before reuse.  |
| P332+P313 | If skin irritation occurs: Get medical advice/attention.   |
| P304+P340 | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. |
| P405      | Store locked up.   |
| P403+P233 | Store in a well-ventilated place. Keep container tightly closed.                                 |
| P501      | Dispose of contents/container to ...   |
| P210      | Keep away from heat/sparks/open flames/hot surfaces. - No smoking.                               |
| P220      | Keep/Store away from clothing/.../combustible materials.   |
| P420      | Store away from other materials.   |
| P411+P235 | Store at temperatures not exceeding ...°C / ...°F. Keep cool.                                    |
| P302+P350 | IF ON SKIN: Gently wash with plenty of soap and water.   |

### 3. Composition/Information On Ingredients

The text for GHS Hazard Statements shown above (if any) is given in the "16. Other Information" section.

### 4. First-aid Measures

**FIRST AID - EYE CONTACT:** Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

**FIRST AID - SKIN CONTACT:** Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.

**FIRST AID - INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

**FIRST AID - INGESTION:** Swallowing less than an ounce will not cause significant harm. For larger amounts, do not induce vomiting, but give one or two glasses of water to drink and get medical attention. If swallowed, get medical attention.

### 5. Fire-fighting Measures

**EXTINGUISHING MEDIA:** Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

**UNUSUAL FIRE AND EXPLOSION HAZARDS:** FLASH POINT IS TESTED TO BE GREATER THAN 200 DEGREES F. No unusual fire or explosion hazards noted. Closed containers may explode when exposed to extreme heat due to buildup of steam. Keep containers tightly closed. Combustible liquid and vapor.

**SPECIAL FIREFIGHTING PROCEDURES:** Water may be used to cool closed containers to prevent buildup of steam. Evacuate area and fight fire from a safe distance. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

## 6. Accidental Release Measures

**STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:** Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools.

## 7. Handling and Storage

**HANDLING:** Wash thoroughly after handling. Wash hands before eating. Avoid contact with eyes. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.

**STORAGE:** Keep from freezing. Keep container closed when not in use. Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Do not store above 120 ° F. Store large quantities in buildings designed and protected for storage of NFPA Class II combustible liquids. Avoid excess heat.

## 8. Exposure Controls/Personal Protection

| Chemical Name    | CAS-No.    | Weight %<br>Less Than | ACGIH TLV-<br>TWA                        | ACGIH TLV-<br>STEL | OSHA PEL-TWA                      | OSHA PEL-<br>CEILING |
|------------------|------------|-----------------------|--|--------------------|-----------------------------------|----------------------|
| Mica             | 12001-26-2 | 5.0                   | 3 mg/m <sup>3</sup><br>(respirable dust) | N.E.               | 20 mppcf (<1% crystalline silica) | N.E.                 |
| Aluminum Flake   | 7429-90-5  | 5.0                   | 1 mg/m <sup>3</sup>                      | N.E.               | 15 mg/m <sup>3</sup> [Total Dust] | N.E.                 |
| Titanium Dioxide | 13463-67-7 | 1.0                   | 10 mg/m <sup>3</sup> (Total Dust)        | N.E.               | 15 mg/m <sup>3</sup> [Total Dust] | N.E.                 |
| Carbon Black     | 1333-86-4  | 1.0                   | 3 mg/m <sup>3</sup><br>(Inhalable Dust)  | N.E.               | 3.5 mg/m <sup>3</sup>             | N.E.                 |
| Vinyl Acetate    | 108-05-4   | 1.0                   | 10 ppm                                   | 15 ppm             | 10 ppm                            | N.E.                 |

### PERSONAL PROTECTION

**ENGINEERING CONTROLS:** Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.

**RESPIRATORY PROTECTION:** A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

**SKIN PROTECTION:** Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.

**EYE PROTECTION:** Use safety eyewear designed to protect against splash of liquids.

**OTHER PROTECTIVE EQUIPMENT:** Refer to safety supervisor or industrial hygienist for further information regarding personal protective equipment and its application. Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.

**HYGIENIC PRACTICES:** Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

|                                 |                             |  |                |
|---------------------------------|-----------------------------|--|----------------|
| <b>Appearance:</b>              | Liquid                      | <b>Physical State:</b>                         | Liquid         |
| <b>Odor:</b>                    | Mild                        | <b>Odor Threshold:</b>                         | No Information |
| <b>Relative Density:</b>        | 1.105                       | <b>pH:</b>                                     | N.D.           |
| <b>Freeze Point, °C:</b>        | N.D.                        | <b>Viscosity:</b>                              | N.D.           |
| <b>Solubility in Water:</b>     | Miscible                    | <b>Partition Coefficient, n-octanol/water:</b> | No Information |
| <b>Decomposition Temp., °C:</b> | No Information              | <b>Explosive Limits, vol%:</b>                 | N.I. - N.I.    |
| <b>Boiling Range, °C:</b>       | 0 - 9999                    | <b>Flash Point, °C:</b>                        | >93            |
| <b>Flammability:</b>            | Does not Support Combustion | <b>Auto-ignition Temp., °C:</b>                | No Information |
| <b>Evaporation Rate:</b>        | Slower than Ether           | <b>Vapor Pressure:</b>                         | N.D.           |
| <b>Vapor Density:</b>           | Heavier than Air            |  |                |

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

**CONDITIONS TO AVOID:** Flammable hydrogen gas will evolve when product comes in contact with water or damp air. Heat will be generated. The amount of heat generated will depend upon the volume of material in contact. Avoid contact with strong acid and strong bases. Avoid temperatures above 120 ° F.

**INCOMPATIBILITY:** Incompatible with strong oxidizing agents, strong acids and strong alkalies.

**HAZARDOUS DECOMPOSITION:** By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.

**HAZARDOUS POLYMERIZATION:** Will not occur under normal conditions.

**STABILITY:** This product is stable under normal storage conditions.

## 11. Toxicological information

**EFFECTS OF OVEREXPOSURE - EYE CONTACT:** Causes eye irritation. Substance causes moderate eye irritation.

**EFFECTS OF OVEREXPOSURE - SKIN CONTACT:** Substance may cause slight skin irritation.

**EFFECTS OF OVEREXPOSURE - INHALATION:** Low hazard for usual industrial handling or commercial handling by trained personnel. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.

**EFFECTS OF OVEREXPOSURE - INGESTION:** Irritating to the nose, throat and respiratory tract. Harmful if swallowed.

**EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS:** Contains residual amounts of vinyl acetate. IARC list vinyl acetate as a possible human carcinogen (Group 2B). This means there is inadequate evidence of carcinogenicity of vinyl acetate in humans and limited evidence of vinyl acetate in experimental animals. Risk of cancer depends on duration and exposure and actual concentration of vinyl acetate in the formula. Contains Titanium Dioxide. Titanium Dioxide is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC. No significant exposure to Titanium Dioxide is thought to occur during the use of products in which Titanium Dioxide is bound to other materials, such as in paints during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of Titanium Dioxide in the formula. (Ref: IARC Monograph, Vol. 93, 2010) Contains carbon black. Chronic inflammation, lung fibrosis, and lung tumors have been observed in some rats experimentally exposed for long periods of time to excessive concentrations of carbon black and several insoluble fine dust particles. Tumors have not been observed in other animal species (i.e., mouse and hamster) under similar circumstances and study conditions. Epidemiological studies of North American workers show no evidence of clinically significant adverse health effects due to occupational exposure to carbon black.

Carbon black is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC and is proposed to be listed as A4- "not classified as a human carcinogen" by the American Conference of Governmental Industrial Hygienists. Significant exposure is not anticipated during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of carbon black in the formula. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

**PRIMARY ROUTE(S) OF ENTRY:** Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

### ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

| <u>CAS-No.</u> | <u>Chemical Name</u> | <u>Oral LD50</u> | <u>Dermal LD50</u> | <u>Vapor LC50</u> |
|----------------|----------------------|------------------|--------------------|-------------------|
| 13463-67-7     | Titanium Dioxide     | >10000 mg/kg Rat | N.I.               | N.I.              |
| 108-05-4       | Vinyl Acetate        | 2920 mg/kg Rat   | 2320 mg/kg Rabbit  | N.I.              |

N.I. - No Information

## 12. Ecological Information

**ECOLOGICAL INFORMATION:** Product is a mixture of listed components.

## 13. Disposal Information

**DISPOSAL INFORMATION:** Dispose of material in accordance to local, state, and federal regulations and ordinances. Do not allow to enter waterways, wastewater, soil, storm drains or sewer systems.

## 14. Transport Information

|                              | <u>Domestic (USDOT)</u> | <u>International (IMDG)</u> | <u>Air (IATA)</u> | <u>TDG (Canada)</u> |

## 15. Regulatory Information

### U.S. Federal Regulations:

#### CERCLA - SARA Hazard Category

This product has been reviewed according to the EPA 'Hazard Categories' promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Fire Hazard, Pressure Hazard, Reactive Hazard, Acute Health Hazard, Chronic Health Hazard

#### Sara Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

| <u>Chemical Name</u> | <u>CAS-No.</u> |
|----------------------|----------------|
| Aluminum Flake       | 7429-90-5      |
| Vinyl Acetate        | 108-05-4       |

#### Toxic Substances Control Act:

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States:

| <u>Chemical Name</u> | <u>CAS-No.</u> |
|----------------------|----------------|
| Acetaldehyde         | 75-07-0        |

#### CALIFORNIA PROPOSITION 65:

WARNING: This product contains a substance known to the State of California to cause cancer.

| <u>Chemical Name</u> | <u>CAS-No.</u> |
|----------------------|----------------|
| Titanium Dioxide     | 13463-67-7     |
| Carbon Black         | 1333-86-4      |

**CALIFORNIA PROPOSITION 65 REPRODUCTIVE TOXINS**

WARNING: This product contains a substance known to the State of California to cause birth defects or other reproductive harm.

No Proposition 65 Reproductive Toxins exist in this product.

**International Regulations:****CANADIAN WHMIS:**

This SDS has been prepared in compliance with Controlled Product Regulations except for the use of the 16 headings.

**16. Other Information****HMIS RATINGS**
