

# Safety Data Sheet

## 1. Identification

|                             |  |                         |  |
|-----------------------------|--|-------------------------|--|
| <b>Product Name:</b>        | TSTRS 3PK TSPR FLT OLIVE DRAB CND  | <b>Revision Date:</b>   | 8/18/2015  |
| <b>Product Identifier:</b>  | 1265C  | <b>Supersedes Date:</b> | New SDS  |
| <b>Product Use/Class:</b>   | Enamel Topcoat/Aerosol   |                         |  |
| <b>Supplier:</b>            | The Testors Corporation<br>440 Blackhawk Park Drive<br>Rockford, IL 61104<br>USA | <b>Manufacturer:</b>    | The Testors Corporation<br>440 Blackhawk Park Drive<br>Rockford, IL 61104<br>USA |
| <b>Preparer:</b>            | Regulatory Department  |                         |  |
| <b>Emergency Telephone:</b> | 24 Hour Hotline: 847-367-7700  |                         |  |

## 2. Hazard Identification

### Classification

### Symbol(s) of Product

### Signal Word

Danger

### GHS HAZARD STATEMENTS

|                                     |      |  |
|-------------------------------------|------|--|
| Flammable Aerosol, category 1       | H222 | Extremely flammable aerosol.   |
| Germ Cell Mutagenicity, category 1B | H340 | May cause genetic defects. Classified as mutagenic Category 1 if one ingredient is present at or above 0.1%. Applies to liquids, solids (w/w units) and gases (v/v). The substance may also have its own exposure limit. Routes of exposure are dependent on ingredient form.                            |
| Carcinogenicity, category 1B        | H350 | May cause cancer. Classified as carcinogenic Category 1 on the basis of epidemiological and/or animal data. Mixtures are classified as carcinogenic when at least 1 ingredient has been classified as carcinogenic and is present at 0.1% or above. Routes of exposure are dependent on ingredient form. |
| STOT, repeated exposure, category 2 | H373 | May cause damage to organs through prolonged or repeated exposure.   |

### GHS LABEL PRECAUTIONARY STATEMENTS

|           |  |
|-----------|--|
| P201      | Obtain special instructions before use.                                      |
| P211      | Do not spray on an open flame or other ignition source.                      |
| P251      | Do not pierce or burn, even after use.                                       |
| P260      | Do not breathe dust, fumes, gases, mists, vapors, or spray.                  |
| P281      | Use personal protective equipment as required.                               |
| P308+P313 | IF exposed or concerned: Get medical advice/attention.                       |
| P314      | Get medical advice/attention if you feel unwell.                             |
| P410+P412 | Protect from sunlight. Do not expose to temperatures exceeding 50°C / 122°F. |

## 3. Composition/Information On Ingredients

**HAZARDOUS SUBSTANCES**

| <u>Chemical Name</u>       | <u>CAS-No.</u> | <u>Wt. %<br/>Range</u> | <u>GHS Symbols</u> | <u>GHS Statements</u> |
|----------------------------|----------------|------------------------|--------------------|-----------------------|
| Aliphatic Hydrocarbon      | 64742-89-8     | 25-50                  | GHS08              | H304-340-350          |
| Propane                    | 74-98-6        | 10-25                  | No Information     | No Information        |
| n-Butane                   | 106-97-8       | 2.5-10                 | No Information     | No Information        |
| Stoddard Solvent           | 8052-41-3      | 2.5-10                 | GHS08              | H304-340-350-372      |
| Acetone                    | 67-64-1        | 2.5-10                 | GHS02-GHS07        | H225-319-336          |
| Hydrous Magnesium Silicate | 14807-96-6     | 2.5-10                 | No Information     | No Information        |
| Mineral Spirits            | 64742-88-7     | 2.5-10                 | GHS08              | H304-372              |
| 2-Propanol                 | 67-63-0        | 1.0-2.5                | GHS02-GHS07        | H225-319-332-336      |
| Amorphous Silica           | 7631-86-9      | 1.0-2.5                | GHS06              | H331                  |
| tert-Butyl Acetate         | 540-88-5       | 1.0-2.5                | GHS02              | H225                  |
| Titanium Dioxide           | 13463-67-7     | 0.1-1.0                | No Information     | No Information        |
| Carbon Black               | 1333-86-4      | 0.1-1.0                | No Information     | No Information        |

**4. First-aid Measures**

**FIRST AID - EYE CONTACT:** Immediately flush eyes with plenty of water for at least 15 minutes holding eyelids open. Get medical attention. Do NOT allow rubbing of eyes or keeping eyes closed.

**FIRST AID - SKIN CONTACT:** Wash skin with soap and water. Remove contaminated clothing. Get medical attention if irritation develops or persists.

**FIRST AID - INHALATION:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get immediate medical attention. Do NOT use mouth-to-mouth resuscitation. If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately.

**FIRST AID - INGESTION:** Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. Get immediate medical attention. If swallowed, get medical attention.

**5. Fire-fighting Measures**

**EXTINGUISHING MEDIA:** Alcohol Film Forming Foam, Carbon Dioxide, Dry Chemical, Dry Sand, Water Fog

**UNUSUAL FIRE AND EXPLOSION HAZARDS:** FLASH POINT IS LESS THAN 20°F. EXTREMELY FLAMMABLE LIQUID AND VAPOR! Water spray may be ineffective. Closed containers may explode when exposed to extreme heat due to buildup of steam. Closed containers may explode when exposed to extreme heat. Vapors may form explosive mixtures with air. Vapors can travel to a source of ignition and flash back. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Perforation of the pressurized container may cause bursting of the can. No unusual fire or explosion hazards noted.

**SPECIAL FIREFIGHTING PROCEDURES:** Water may be used to cool closed containers to prevent pressure buildup and possible autoignition or explosion. Full protective equipment including self-contained breathing apparatus should be used. Evacuate area and fight fire from a safe distance. Use water spray to keep fire-exposed containers cool. Containers may explode when heated.

**6. Accidental Release Measures**

**STEPS TO BE TAKEN IF MATERIAL IS RELEASED OR SPILLED:** Contain spilled liquid with sand or earth. DO NOT use combustible materials such as sawdust. Isolate the hazard area and deny entry to unnecessary and unprotected personnel. Remove all sources of ignition, ventilate area and remove with inert absorbent and non-sparking tools. Dispose of according to local, state (provincial) and federal regulations. Do not incinerate closed containers. Ventilate area, isolate spilled material, and remove with inert absorbent. Dispose of contaminated absorbent, container, and unused contents in accordance with local, state, and federal regulations.

**7. Handling and Storage**

**HANDLING:** Wash thoroughly after handling. Wash hands before eating. Remove contaminated clothing and launder before reuse. Use only with adequate ventilation. Follow all MSDS/label precautions even after container is emptied because it may retain product residues. Avoid breathing fumes, vapors, or mist. Avoid contact with eyes, skin and clothing.

**STORAGE:** Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks and open flame. Contents under pressure. Do not store above 120 ° F. Store large quantities in buildings designed and protected for storage of NFPA Class I flammable liquids. Keep away from heat, sparks, flame and sources of ignition. Avoid excess heat. Product should be stored in tightly sealed containers and protected from heat, moisture, and foreign materials.

## 8. Exposure Controls/Personal Protection

| Chemical Name              | CAS-No.    | Weight %<br>Less Than | ACGIH TLV-<br>TWA | ACGIH TLV-<br>STEL | OSHA PEL-TWA | OSHA PEL-<br>CEILING |
|----------------------------|------------|-----------------------|-------------------|--------------------|--------------|----------------------|
| Aliphatic Hydrocarbon      | 64742-89-8 | 30.0                  | N.E.              | N.E.               | N.E.         | N.E.                 |
| Propane                    | 74-98-6    | 20.0                  | 1000 ppm          | N.E.               | 1000 ppm     | N.E.                 |
| n-Butane                   | 106-97-8   | 10.0                  | N.E.              | 1000 ppm           | N.E.         | N.E.                 |
| Stoddard Solvent           | 8052-41-3  | 10.0                  | 100 ppm           | N.E.               | 500 ppm      | N.E.                 |
| Acetone                    | 67-64-1    | 10.0                  | 500 ppm           | 750 ppm            | 1000 ppm     | N.E.                 |
| Hydrous Magnesium Silicate | 14807-96-6 | 5.0                   | 2 mg/m3           | N.E.               | N.E.         | N.E.                 |

| 2-Propanol                 | 67-63-0    | 5.0                   | 200 ppm           | 400 ppm            | 400 ppm      | N.E.                 |
| Amorphous Silica           | 7631-86-9  | 5.0                   | N.E.              | N.E.               | N.E.         | N.E.                 |
| tert-Butyl Acetate         | 540-88-5   | 5.0                   | 200 ppm           | N.E.               | 200 ppm      | N.E.                 |
| Titanium Dioxide           | 13463-67-7 | 1.0                   | 10 mg/m3          | N.E.               | 15 mg/m3     | N.E.                 |
| Carbon Black               | 1333-86-4  | 1.0                   | 3 mg/m3           | N.E.               | 3.5 mg/m3    | N.E.                 |

### PERSONAL PROTECTION

**ENGINEERING CONTROLS:** Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof ventilation equipment. Provide general dilution of local exhaust ventilation in volume and pattern to keep TLV of hazardous ingredients below acceptable limits. Prevent build-up of vapors by opening all doors and windows to achieve cross-ventilation.

**RESPIRATORY PROTECTION:** A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. A NIOSH/MSHA approved air purifying respirator with organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits.

**SKIN PROTECTION:** Use gloves to prevent prolonged skin contact. Nitrile or Neoprene gloves may afford adequate skin protection.

**EYE PROTECTION:** Use safety eyewear designed to protect against splash of liquids.

**OTHER PROTECTIVE EQUIPMENT:** Refer to safety supervisor or industrial hygienist for further guidance regarding types of personal protective equipment and their applications.

**HYGIENIC PRACTICES:** Wash thoroughly with soap and water before eating, drinking or smoking. Remove contaminated clothing immediately and launder before reuse.

## 9. Physical and Chemical Properties

|                                 |                     |   |                |
|---------------------------------|---------------------|---|----------------|
| <b>Appearance:</b>              | Aerosolized Mist    | <b>Physical State:</b>                              | Liquid         |
| <b>Odor:</b>                    | Solvent Like        | <b>Odor Threshold:</b>                              | N.E.           |
| <b>Relative Density:</b>        | 0.783               | <b>pH:</b>  | N.A.           |
| <b>Freeze Point, °C:</b>        | N.D.                | <b>Viscosity:</b>                                   | No Information |
| <b>Solubility in Water:</b>     | Slight              | <b>Partition Coefficient, n-octanol/<br/>water:</b> | N.D.           |
| <b>Decomposition Temp., °C:</b> | N.D.                | <b>Explosive Limits, vol%:</b>                      | 0.9 - 12.8     |
| <b>Boiling Range, °C:</b>       | -24 - 204           | <b>Flash Point, °C:</b>                             | -96            |
| <b>Flammability:</b>            | Supports Combustion | <b>Auto-ignition Temp., °C:</b>                     | N.D.           |
| <b>Evaporation Rate:</b>        | Faster than Ether   | <b>Vapor Pressure:</b>                              | N.D.           |
| <b>Vapor Density:</b>           | Heavier than Air    |   |                |

(See "Other information" Section for abbreviation legend)

## 10. Stability and Reactivity

**CONDITIONS TO AVOID:** Avoid temperatures above 120°F (49°C). Avoid contact with strong acid and strong bases. Avoid all possible sources of ignition.

**INCOMPATIBILITY:** Incompatible with strong oxidizing agents, strong acids and strong alkalis.

**HAZARDOUS DECOMPOSITION:** By open flame, carbon monoxide and carbon dioxide. When heated to decomposition, it emits acrid smoke and irritating fumes. Contains solvents which may form carbon monoxide, carbon dioxide, and formaldehyde.

**HAZARDOUS POLYMERIZATION:** Will not occur under normal conditions.

**STABILITY:** This product is stable under normal storage conditions.

## 11. Toxicological information

**EFFECTS OF OVEREXPOSURE - EYE CONTACT:** Causes Serious Eye Irritation

**EFFECTS OF OVEREXPOSURE - SKIN CONTACT:** May cause skin irritation. Allergic reactions are possible.

**EFFECTS OF OVEREXPOSURE - INHALATION:** Harmful if inhaled. High gas, vapor, mist or dust concentrations may be harmful if inhaled. Avoid breathing fumes, spray, vapors, or mist. High vapor concentrations are irritating to the eyes, nose, throat and lungs. Prolonged or excessive inhalation may cause respiratory tract irritation.

**EFFECTS OF OVEREXPOSURE - INGESTION:** Harmful if swallowed.

**EFFECTS OF OVEREXPOSURE - CHRONIC HAZARDS:** May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion, and blurred vision) and/or damage. High concentrations may lead to central nervous system effects (drowsiness, dizziness, nausea, headaches, paralysis, and blurred vision) and/or damage. Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Contains carbon black. Chronic inflammation, lung fibrosis, and lung tumors have been observed in some rats experimentally exposed for long periods of time to excessive concentrations of carbon black and several insoluble fine dust particles. Tumors have not been observed in other animal species (i.e., mouse and hamster) under similar circumstances and study conditions. Epidemiological studies of North American workers show no evidence of clinically significant adverse health effects due to occupational exposure to carbon black.

Carbon black is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC and is proposed to be listed as A4- "not classified as a human carcinogen" by the American Conference of Governmental Industrial Hygienists. Significant exposure is not anticipated during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of carbon black in the formula. Contains Titanium Dioxide. Titanium Dioxide is listed as a Group 2B-"Possibly carcinogenic to humans" by IARC. No significant exposure to Titanium Dioxide is thought to occur during the use of products in which Titanium Dioxide is bound to other materials, such as in paints during brush application or drying. Risk of overexposure depends on duration and level of exposure to dust from repeated sanding of surfaces or spray mist and the actual concentration of Titanium Dioxide in the formula. (Ref: IARC Monograph, Vol. 93, 2010)

**PRIMARY ROUTE(S) OF ENTRY:** Eye Contact, Ingestion, Inhalation, Skin Absorption, Skin Contact

### ACUTE TOXICITY VALUES

The acute effects of this product have not been tested. Data on individual components are tabulated below:

| <u>CAS-No.</u> | <u>Chemical Name</u>  | <u>Oral LD50</u> | <u>Dermal LD50</u> | <u>Vapor LC50</u>      |
|----------------|-----------------------|------------------|--------------------|------------------------|
